PROFESSIONAL SUMMARY

B.Tech graduate in Electronics and Communication Engineering with a CGPA of 9.0. Skilled in Python, SQL, Power BI, and Excel for data analysis, dashboard development, reporting automation, and business intelligence. Experienced in data cleaning, data wrangling, exploratory data analysis (EDA), ETL processes, and transforming raw data into actionable insights for stakeholder reporting. Also experienced in Python-based full-stack web development using FastAPI, React.js, REST APIs, and agile methodologies to build scalable applications.

EDUCATION

B.Tech, Electronics & Communication Engineering

Appa Institute of Engineering & Technology, Kalaburagi

2021 – 2025

CGPA: 9.0

TECHNICAL SKILLS

Programming: Python, SQL

Database: MySQL, SQLite, Database Management

Web Technologies: HTML, CSS, React.js, FastAPI, REST APIs

Data & Analytics: Power BI, Excel Dashboards, Data Analysis, Data Visualization, EDA, ETL

Libraries: Pandas, NumPy, SQLAlchemy

Machine Learning & GenAI: Machine Learning Basics, LLM Fundamentals, Prompt Engineering

Tools & Methodologies: Git, GitHub, Jupyter Notebook, VS Code, Agile

EXPERIENCE

Data Analyst Intern

Jun 2025 – Sep 2025

Ai variant — Bangalore

- Analyzed large-scale business datasets using SQL queries, Python scripting, and Excel to uncover trends, perform statistical analysis, and support stakeholder reporting requirements.
- Built interactive Power BI dashboards to visualize performance metrics, track KPIs, and deliver business intelligence insights for data-driven decision-making.
- Performed data cleaning, data wrangling, preprocessing, and report automation using Python and Excel to improve reporting accuracy and operational efficiency.

Python Developer Intern

Jan 2026 – Present

Minds NXT

- Developed and deployed RESTful APIs using Python and FastAPI to support backend functionality and CRUD operations for web applications.
- Integrated APIs with React.js frontend and managed database operations using SQLAlchemy ORM with SQLite for efficient data management.
- Implemented JWT authentication, conducted unit testing, debugging, and code reviews to improve application security and performance.

PROJECTS

E-Commerce Website

React.js, FastAPI (Python), SQLAlchemy, Tailwind CSS

- Built a full-stack e-commerce web application using React.js for the frontend and FastAPI for the backend with RESTful API architecture, enabling users to browse products, manage cart, and place orders.
- Implemented user authentication with role-based access control (RBAC) to support separate admin and user panels, allowing admins to manage products securely.
- Designed a responsive UI/UX for mobile and desktop, and implemented multi-user data isolation for orders, addresses, and order history using version control with Git.

Crowdfunding Project Performance Dashboard — SQL, Power BI, Excel

- Designed an interactive Power BI dashboard with data modeling to analyze and visualize crowdfunding project data from multiple sources.
- Tracked key KPIs including success rate (38.35%), average project duration, total funds raised (\$48B), and backer count (44.52M) using DAX measures.
- Built data visualizations for project outcomes, categories, countries, and goal ranges to identify trends and generate actionable business recommendations.

CERTIFICATIONS

- Data Visualization: Empowering Business with Effective Insights — Tata Forage, Aug 2025
- Data Analyst Certification — ExcelR, Aug 2025
- Python Libraries for Data Science — Simplilearn SkillUp, Sep 2025
- NASSCOM Future Skills Prime Certification, 2025
- Deloitte Technology Virtual Internship — Deloitte Forage, Mar 2026
